Candex Displays gives great emphasis to the research and development of eco-friendly materials. With our innovative technology and modern design, encompass with the durable 100% recyclable aluminum alloy plus many different textured fabric, we are able to create a wide range of display products bringing new vibes to this industries.

Material

100% Recyclable Aluminum Alloy and Polyester Fabric。

Graphic Printing

Using renown big format sublimation printing technology, the print is vibrant, sharp and color last only than the rest.

Design

Innovative and trendy design are applied in standard or customized products which is key in promoting brand awareness.

Installation

With modular design and easy to follow instruction guide, a 9m² exhibition booth could be easily assembled in 2-3 hours with 2 manpower.

Packaging

Our customized trolley bag could pack all the material to construct the 9m² exhibition booth making transportation a breeze.

Economical

The whole booth system is reusable maximizing the return of investment and is also eco-friendly.
