A lightbox is an important tool in brand building. Candex SEG Frameless Fabric LED Lightbox is pure and simple yet outstanding in every aspect. This minimal design was based on advanced, precision German technology and reined over a period of 5 years. We spared no effort in sourcing the ultimate Go Green fabric and dye, to deliver the most vibrant print. We are committed to building a sustainable future with our partners.

Introduction

Structure

- Aluminum Alloy
- High-power Modular LED

Material

- High transmittance Fabric
- Imported Eco-Friendly inks

Printing

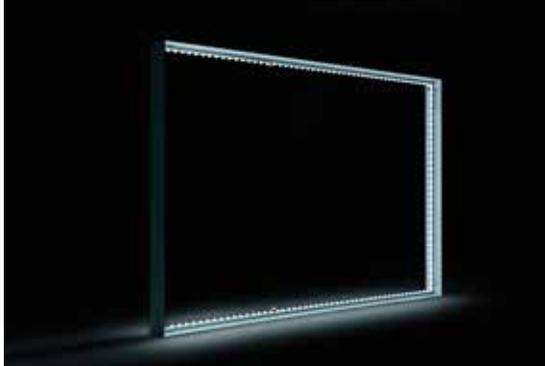

- Digital Dye-sublimation

- 45mm
- 55mm
- 75mm
- 80mm
- 95mm
- 100mm
- 120mm
- 140mm
- 160mm
- 180mm

Fabric Frame Profiles

- 15mm
- 20mm
- 30mm
- 32mm
- 36mm
- 50mm Double Side
- 60mm Double Side

Provide different kinds of shape

Suitable for retail store, shopping mall, gallery, hotel, commercial entertainment area and other etc.

Shape

Key Features

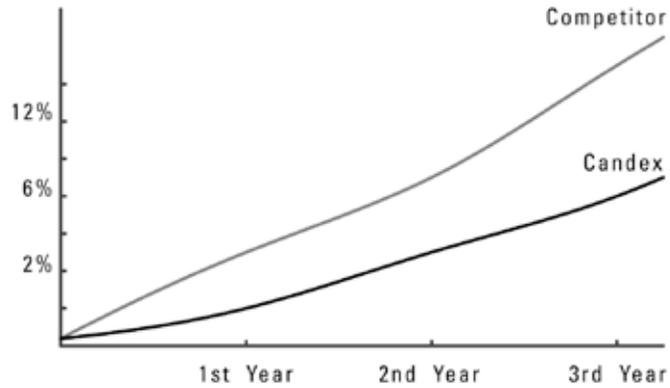

Modular Design

Modular and Shockproof Packaging

1. Modular design: The LED lights are in modular format for easy transportation, assembly and maintenance.
Modular and Shockproof Packaging:
The packing is specially designed to withstand transportation ensuring no breakage to the product.
2. Performance:
No Shadow and No Light spot, Luminance is 2000-4000lux,
3. Visual Effects:
Frameless design, High resolution printing
4. Customization:
Length and width can be customized. (A graphic width of more than 3.14m needs joining)

Lumen Depreciation

1%-2%

1st Year
Compare with other brands, 3%-5%

- 100% recyclable Aluminum Alloy for better heat dissipation

3%-5%

2nd Year
Compare with other brands, 6%-9%

- Energy conservation and environmental protection
- High -power Module LED

6%-8%

3rd Year
Compare with other brands,

- High-power Module LED - The useful life is 30000 hours

Performance

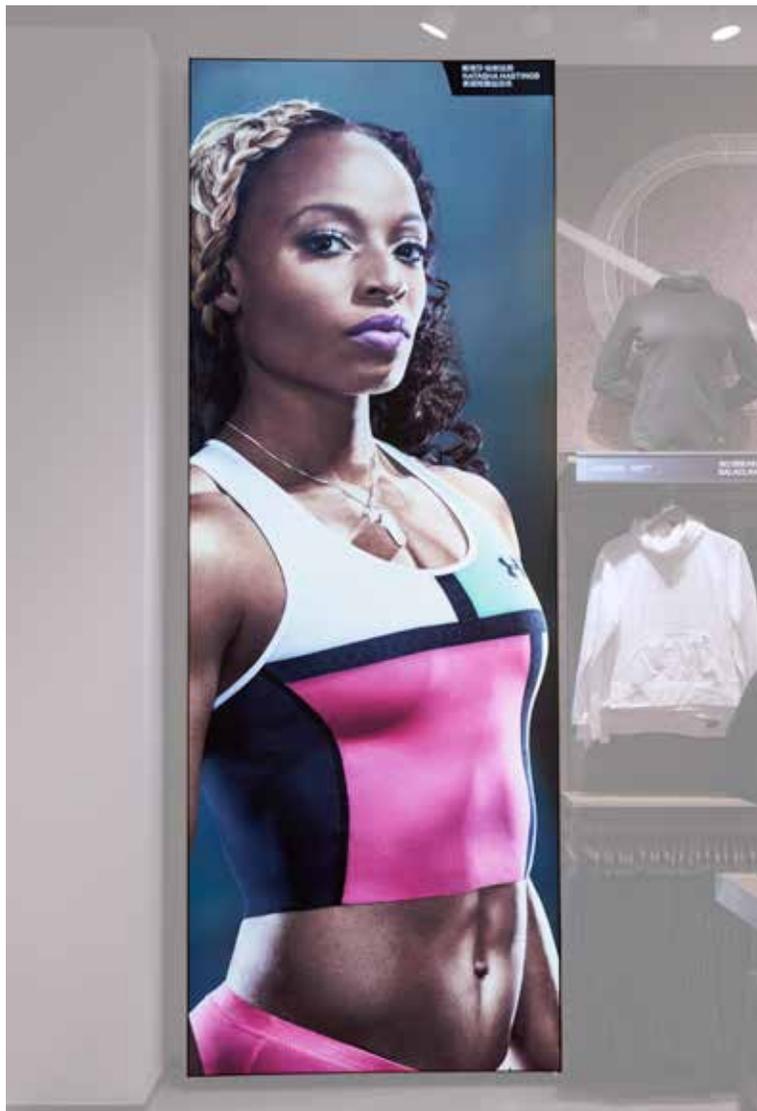

Comparison

- Luminance is 2000-4000lux
- The brightness and evenness are strictly controlled within $\pm 10\%$
- Imported fabric. 250g/m²
- Dye-sublimation printing
- Imported eco-friendly inks
- High saturation and Colorful
- Dustproof protection and Independent packaging for graphic
- Modular format for easy transportation, assembly and maintenance
- Quality Management System
- 2 years warranty & Maintenance Service

Other brands

- Luminance is about 1600lux
- Uneven brightness, visible light spots and shadows
- Visible inside LED circle highlights.
- The print tension is not taut and fabric is thin
- Graphic print is not vibrant and no depth
- Print is fuzzy and dirty looking especially obvious on light or white background

Primary™ SEG Lightbox

Quality Management System

Brightness and Evenness

The lightbox will undergo 8 hours of aging test which include brightness, intensity, light distribution, structural stability, high voltage current and temperature tests. We guarantee the light will be

Leakage and Electric shock protection safety features

Our lightbox has a surge protection safety feature safety is our concern.

Color Temperature Management

Candex unique light intensity management technology provides consistent luminance throughout the lightbox and the color temperature is in the best range of 6500k-7000k. The accurate color reproduction improves the quality of the image output.

After-sale Service

- 2 years warranty for LED lights and transformer; one to one replacement of LED lights and transformer.
- After warranty period, cost of material will be levied
- Maintenance Service. Our dedicated Customer Service team will contact the store every 6 months after installation. The Customer Service team will help identify any issues encountered by the store and rectify the problem accordingly. Our Customer Service team continuously touch base with the stores to ensure our products are operating optimally.
